24mpg	23mpg	22mpg	31mpg	52mpg	22mpg
TIME TO:	BIKE TO WORK ! AM 5:00 PM		CAR POOL !		

- "The choice of vehicle you drive has a greater effect on the environment than any other choice you make as a consumer" - Union of Concerned Scientists
- Federal law permits SUVs to waste 33% (on average!) more gas than passenger cars.
- "Fuel efficiency can be increased at least 25% with existing technology." - National Academy of Sciences 2001 Report
- Only 5% of all drivers actually use 4 wheel drive.
- Driving a 13mpg SUV rather than an average 22mpg car for one year will waste more energy than if you . . .
  - Left your refrigerator door open for 6 years
  - Left your color television turned on for 28 years
  - Left your bathroom light burning for 30 years
- 35% of all CO<sup>2</sup> emitted into the atmosphere comes from road vehicles. CO<sup>2</sup> is the key contributor to global warming.
- "Conservation does not mean doing without. Thanks to new technology, it can mean doing better and smarter and cheaper." - President George W. Bush
- "Intimidating dimensions and general lack of maneuverability makes driving a chore. Braking - poor" - Consumer Reports on Ford Explorer

I FEEL I HAVE BEEN UNJUSTLY TICKETED. By checking this box and mailing this pre addressed ticket I insist that the U.S. Government CLOSE THE LIGHT TRUCK LOOP HOLE and use existing technology to make a safe SUV that is environmentally responsible. Until our Government shows it cares why should I? What consumers demand the companies will make!

**TO OFFENDER**

Open your eyes, take a few deep breaths, and try to get honest with yourself. Did you get excited when you saw that ad of a SUV in the remote wilderness? Did you want to sue the manufacturer for FALSE advertising when you started driving it to the shopping center instead? Are you REALLY going to take that shiny new \$40,000 SUV off road? We made this ticket because we live in the city, and so do you, and there's something really wrong about the way the SUV is changing our streets and the air we breathe. Global Climate change and unhealthy air impacts all of us. Think about it! Why do you need such a HUGE car? This is not a militarized zone! After all, there's nothing in the American dream about sitting in traffic in your car by yourself for hours on end every day polluting more than your fair share. Try taking the train or biking to work!! These thoughts brought to you by: Ant, JTSudios & MissMira

**FAILURE TO PAY ATTENTION TO YOUR OWN BEHAVIOR IS HAZARDOUS TO EVERYONE**
